

# MAXX Into WC Gel Synbiotic

## SYNBIOTIC SANITARY CLEANER GEL

**ECOLAB®**

### Performance

- ▲ A combination of prebiotics and probiotics plus acid ingredients delivers professional cleaning effects immediately from application but also continues to clean for hours after application
- ▲ Formulation targets and breaks down organic soils found in toilets and urinals
- ▲ Effectively manages a balanced microbiome for safer and effective deep cleaning against biofilms and other organic soils
- ▲ The combination of synbiotic cleaning and acidity fight limescale build up at the microscopic level

### Efficiency

- ▲ Can save cleaning time as the microbes continue cleaning long after your team have finished
- ▲ Prevents the formation of any unpleasant odours at source
- ▲ Ready-to-use formulation for daily use removing lime and urine stone

### Safety

- ▲ Material friendly formulation allows use on acid resistant surfaces
- ▲ Colour coding for clear usage and identification

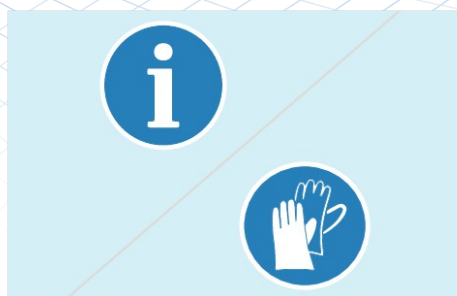

### Sustainability

- ▲ Biodegradable solution
- ▲ Maintains a natural microbial balance and positively impacts our environment after use
- ▲ Up to 66%\*reduction of CO2 emissions associated with packaging

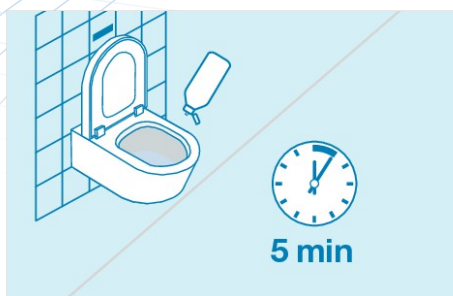

\*Based on 100% PCR versus virgin plastic

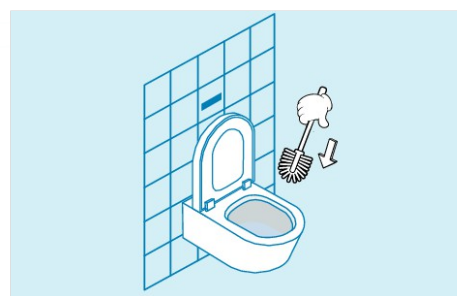

## Use instructions

1. Check hygiene plan and product label for detailed use information. Wear suitable protective clothing when handling the product.

2. Apply **MAXX Into WC Gel Synbiotic** undiluted to the toilet bowl and under the toilet rim. Cover the whole inside surface of the bowl with a continuous film of liquid. Use brush. Leave in contact for 5 minutes.

3. Agitate with toilet brush. Flush and rinse brush.

## Special notes

- Only a small quantity of the product is needed compared to normal products. Proper dosage saves costs and minimizes environmental impacts. Keep out of reach of children. Shake well before use.
- Test material compatibility in a small inconspicuous area prior to application.
- Can be diluted to 25-50% and used as a periodic renovator for limescale reduction.
- For professional use only.

## Safety information

- Do not mix with any other product.
- For further information and safety instructions, please see product label and Safety Data Sheet.

## Storage conditions

- Store between 0 °C and 40 °C in original closed container only.
